I was so nervous the least little noise would startle me and it was almost impossible to get a good night's sleep. The new Spring styles are here in profusion—

THERE'S one outstanding fact about this store that no man can deny. This is THE young men's store of this section and it's due mostly to the fact that we have Stratford Clothes. Not only do we have them, but we have more of them in more different styles, more different shades and more different patterns than any young man ever saw in Tulsa, or Chicago, or New York.

WE WANT you to see these clothes—that is, if you're a young man or favor youthful styles—for there's no others quite like them this season. Hasn't been any other like them any other season so far as we can learn. The Spring 1920 styles are here now. Not all of them, of course, but enough to show you just exactly what the new styles are.

YOU KNOW the time is here to wear them and if you don't know these are the smartest young men's clothes in town, just take a look for yourself. If the clothes don't prove up to what we say, don't invest. But they will, and you will.
